What is a Charitable Trust?

A charitable trust is a strategic tool that you can use to set up your assets to benefit you, your beneficiaries, and a charity all at the same time! A charitable trust could offer many financial advantages for philanthropically minded individuals with nonessential assets, such as stocks or real estate.

There are two primary types of trusts: charitable lead trusts and charitable remainder trusts.

- Charitable Lead Trust – this type of trust distributes a portion of its proceeds to a charity for a set term. At the end of that set term, the remainder of the trust is distributed to your beneficiaries.
- Charitable Remainder Trust – this type of trust allows an individual to receive an income from the distribution of the trust during their lifetime or for a set term. At the end of the term or upon your death, your chosen charity receives the remainder of the trust.

If you have an interest in establishing a trust to fulfill your philanthropic goals, please contact P.K. Thomas at 662-844-8989 or pk@createfoundation.com.

Why do you give through CREATE?

I have found my Advised Fund a very easy way to go online and make donations or memorials. Because of CREATE's reputation, I can give without reservation knowing my wishes will be carried out.
